Jeg elsker sølvfargen, men overgangen ble litt for brå. Flere har sagt at jeg så plutselig eldre ut. Jeg merket det selv og begynte å tvile: Var det galt gjort av meg å ikke etterstrebe et ungdommelig utseende?»

Det skriver oversetter og skribent Tatiana Elsoukova (43) i en kronikk hos oss.

Men så kom Pørni. I mai var Facebook-feeden min full av begeistring for serien «Pørni» med Henriette Steenstrup i hovedrollen. Det deiligste med Pørni er at hun er normal. Hun er midt i 40-årene og hun eier sin alder. Hun har både rynker og former og - lange pupper, som hun sjøl liker å påpeke. Det vises at hun har levd. Jeg synes Pørni er vakker, hennes stødighet i sin egen alder og sin egen kropp er sexy.

St. Olavs hospital

adresseavisen of For to år siden ble Benjamin Meck-Hyllmark rammet av leukemi. Det ble starten på en tøff kreftbehandling ved St. Olavs hospital, og et sykehusrom det ikke finnes maken til.

Før var de egentlig et lager, men fordi det ofte var fullt kjør på operasjonsstuene, måtte de også bruke det ekstra rommet når små barn skulle gjennomgå enkle behandlinger i narkose.

Første gang Benjamin var inne på rommet, hadde de slått av alt lyset, forteller Marit, og bare operasjonslampa lyste. Den så ut som en måne, sa Benjamin, og Marit som er en sykepleier, hun var med på leken.

Benjamin inspirerte de ansatte på sykehuset til å innrede rommet slik Benjamin så for seg da han lukket øynene. Nå er det et julgelrom med stjernehimmel.

- Jeg tror barna liker seg her. Fordi det er så fint. Her kan en glemme det som er vondt. Og at en er syk, sier Benjamin.
